

CYBER SECURITY

COMPREHENSIVE SECURITY SOLUTIONS

Protect Your Business

Your business and confidential information are at risk every time you access the Internet. On average, public-facing computers connected to the Internet become targets for malware probes in less than twenty minutes.¹ With security threats constantly evolving, businesses are having difficulty protecting their sensitive information and are experiencing more frequent and sophisticated breaches. All companies require a comprehensive security solution to address the range of potential online threats.

Superior Security Solutions

Electric Lightwave's Cyber Security Solutions can help protect your business from a wide range of evolving online threats. We can assist you by identifying your vulnerabilities, recommending a solution based on your needs, implementing your security services and continuing to protect your business. Our cloud-based security solutions are superior to on-premise options by protecting your network perimeter and keeping malicious viruses and attacks from ever reaching your network. Our cyber security experts track evolving threats and provide up-to-date defenses so you can focus on your core business.

BUSINESS BENEFITS

- + **Comprehensive Defense** – Protect your business from unauthorized network access, DDoS attacks, email viruses, and more with Integra's comprehensive security solutions.
- + **Security Expertise** – Leverage our cyber security experts 24 x 7 to assess your vulnerabilities, track evolving threats and protect your business assets.
- + **Superior Cloud-based Protection** – Save capital expenses and IT resources with Electric Lightwave's superior cloud-based security solutions.
- + **Single Vendor** – Simplify your service management with Electric Lightwave for all of your communication, networking and security needs.
- + **Industry-Leading Partnerships** – Enhance your security with Electric Lightwave's robust network and industry-leading equipment and vendor partnerships.

Expert Protection

Electric Lightwave built a comprehensive security suite to address your various security needs and partnered with industry-leaders to provide you with superior security solutions. Our services include:

- **Cloud Firewall Service** – Using a highly optimized architecture, our Cloud Firewall Service guards the perimeter of your network while safely enabling applications and delivering visibility and control over users and content. We partnered with Palo Alto Networks' leading Next-Generation Firewall.
- **DDoS Mitigation Service** - Electric Lightwave's cloud-based Distributed Denial of Service (DDoS) Mitigation Service secures your online service availability by identifying malicious traffic, mitigating DDoS attacks and protecting your network. Integra has partnered with industry-leading Arbor Networks for DDoS protection and network equipment.
- **Email Security** – Whether you purchase Electric Lightwave's Hosted Microsoft Exchange email service or host your own email servers, Electric Lightwave provides anti-virus and anti-spam email protection to block email threats before they reach your inbox. For our Hosted Exchange customers, McAfee protection is included with the service bundle. Through our partnership with Cisco, we also offer email anti-spam and anti-virus protection for customers who host their own email servers.
- **Security Pro Services** – Electric Lightwave's team of experts assess your level of vulnerability and exposure to attacks through a partnership with RiskSense®, Inc. We then tailor a proven, customized and cost-effective solution to fit your situation.
