UNINTERRUPTED CONNECTIVITY FOR CRITICAL NEEDS
SOLUTIONS-ORIENTED PRODUCTS & SERVICES FOR FEDERAL GOVERNMENT

Adapting to Evolving Demands

In an evolving environment, federal agencies face new challenges. The level of services demanded by citizens continues to increase, while budgets remain stagnant, or even shrink. The public requires enhanced visibility and reliable access to federal personnel and services. New technological developments provide meaningful opportunities to deliver on those demands, but they come at a cost.

With budgets dwindling, federal agencies require creative solutions that allow them to do more, with less. You need uninterrupted connectivity to critical systems, data and applications to ensure consistent service. You need a partner with the expertise, agility and accountability required to navigate technology and budget challenges, while developing a measurable and attainable roadmap for upgrading and maintaining technology and systems to keep pace with current demands.

Maintain Secure, Uninterrupted Connectivity

Electric Lightwave's highly-secure and reliable networking solutions and services keep mission-critical data and applications safe and accessible at all times—ensuring consistent connectivity and service delivery both intra-agency and to the community.

- Improve reliability with enhanced network diversity and redundancy. Our high-density, fully-owned and operated metro and long-haul fiber optic network and nationwide IP/MPLS backbone offer the diversity federal agencies require.

- Choose scalable and secure, FEDRAMP-compliant Data Networking and Internet options. Whether you need the capacity and control of Dark Fiber; dedicated Private Line, MEF-certified Ethernet or Wavelength Services; managed

ORGANIZATIONAL BENEFITS

+ **Leverage the experience** of a proven, Schedule GSA 70 approved provider, and dedicated, local support.

+ **Stretch dollars** with managed solutions that give you the latest technologies at a fraction of the cost.

+ **Improve reliability** with enhanced network diversity and redundancy.

+ **Collaborate across agencies** with secure Data Networking and Internet solutions backed with SLAs guaranteeing the highest reliability standards.

+ **Plan for the unexpected** with data center and colocation services that deliver on BC/DR initiatives.

+ **Rest assured** with 24 x 7 Network Operations Center support and easy access to technical personnel.

services, including IP/MPLS VPN; or Cloud Firewall with High Speed Internet—Electric Lightwave has the right solution to address your networking requirements and cyber-security concerns.

- Protect mission-critical data and equipment against attack and unplanned outages. Electric Lightwave provides Dark Fiber, lit services, Colocation and Data Center services within a number of strategically-located, secure, enterprise-class data centers—providing enhanced options for mirroring and BCDR planning.

Maximize Service, Minimize Costs

Electric Lightwave offers scalable, affordable and creative solutions designed to meet the unique needs of federal government agencies.

- Benefit from a range of products designed to work with traditional to advanced systems. Electric Lightwave's robust product portfolio supports everything from TDM-based phones to IP-based solutions with SIP Trunking and Long Distance—providing you scalable options for modernization planning and budgeting.

- Reduce costs and gain expertise with managed products and services. Upgrade to the latest equipment without the capital expenditures with Electric Lightwave's Managed or Hosted Voice. Implement collaboration and messaging services organization-wide for one, low monthly fee with Integra-managed Microsoft tools. Protect your data and network against the latest threats with Electric Lightwave's managed Cloud Firewall Service.

- Access shared services via the Cloud with secure Data Networking and cost-effective High Speed Internet. Electric Lightwave offers scalable bandwidth with options for measured use billing—giving you the flexibility and capacity you need to affordably access shared Cloud services.

- Reduce costs and manage fluctuating bandwidth requirements. Converge traffic onto a single Voice/Data connection or Virtual Private Network—maximizing your investment and reducing costs.

Get the Right Expertise for Your Critical Needs

Electric Lightwave's highly-trained, dedicated, local team of government-focused specialists knows your sector, inside and out. We'll work with you to define an informed technology roadmap that delivers on your key initiatives, on time, on budget and in compliance with federal regulations and processes.

As a GSA Schedule 70 approved vendor with a proven track record of performance in the federal space, we understand your mandates, procurement processes, and regulatory requirements. We're uniquely equipped to deliver solutions that meet, and exceed, expectations at every level.

We offer SLAs with guaranteed uptime, supported with 24 x 7 service from our Network Operations Center with access to key technical personnel—giving you the peace of mind you need from a partner you can trust.
