

CLOUD CONNECT SERVICE

FAST, SECURE PRIVATE CONNECTIONS TO CLOUD SERVICE PROVIDERS

Capitalize on Cloud Opportunities

Cloud platforms and applications provide businesses flexibility to optimize resources, lower costs and avoid capital investment. More businesses are leveraging cloud opportunities to increase business agility and simplify management of multiple application environments. However, transmitting company data over the public Internet has its risks. Besides security, the public Internet doesn't provide the reliability and consistent performance required for critical company data and processes.

Connect with Confidence

Electric Lightwave's Cloud Connect directly links your business to leading cloud service provider platforms, allowing you to safely deploy essential workloads to cloud environments. As an approved Direct Connect Technology Partner with Amazon Web Services (AWS), we provide private low latency connections from the Electric Lightwave network to AWS. You can access your data from multiple locations and avoid the intermittent connectivity issues of the public Internet.

BUSINESS BENEFITS

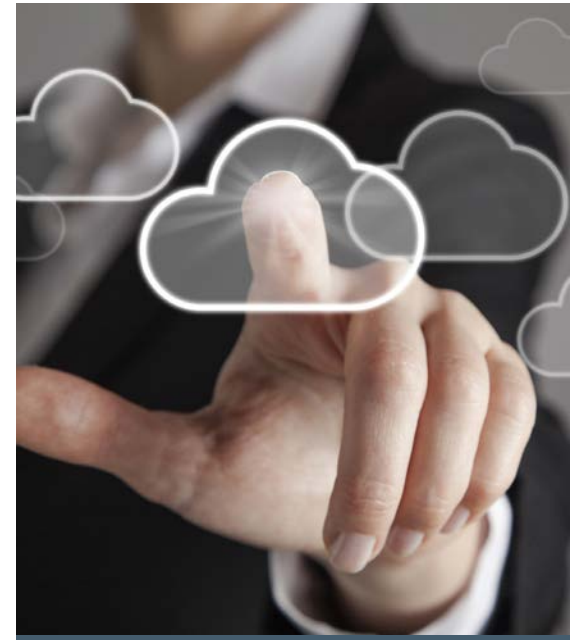

- + **Secure** – Access your mission-critical applications safely with private direct cloud connections.
- + **Reliable Connectivity** – Establish dedicated low latency, high-speed access to your cloud services.
- + **Business Continuity and Disaster Recovery** – Make replications, backup and recovery easier than ever.
- + **Flexible** – Choose from multiple connectivity options for private, secure connections to leading Cloud Services Providers, including Amazon Web Services (AWS).
- + **Technology Partner** – Rely on Electric Lightwave to provide you with the robust network services needed to safely and efficiently migrate workloads to the cloud.

Connectivity from a Trusted Advisor

Our business is connecting businesses with advanced networking, communications and technology solutions. Electric Lightwave owns and operates a high-density, diverse network delivering bandwidth to businesses requiring dependable and responsive service. As the trusted advisor to some of the most demanding IT organizations in the country, we understand your requirements for secure, reliable, low-latency solutions to power high-bandwidth cloud services, data center connectivity and the applications that drive your success. Just as important, we work with you to understand your needs and develop the technology solution that is right for you.

Focus on Your Core Business

Cloud-based services are helping businesses solve for the challenges of rapidly changing technology and tight IT budgets. These services offer scalable and economical solutions for your organization. Our private, direct connection to your cloud platform provides the bandwidth you need to access your applications and make backups for business continuity and disaster recovery easier. By trusting Electric Lightwave Cloud Connect, you can focus your resources on your core business. After all, isn't that why you're using cloud services to begin with?
