

WHOLESALE SIP SOLUTIONS

YOUR INTEGRATED VOICE & DATA SERVICE

Save Costs and Preserve Quality

Your business success depends on quick, clear, dependable communications. You need an affordable, converged voice and data IP solution, which cuts communication costs without sacrificing voice quality.

To meet your IP communications needs, Electric Lightwave's SIP Solutions offers a highly scalable, next-generation, integrated voice and data service, establishing a foundation for your multimedia applications, now and in the future.

Our nationwide coverage supports your distributed offices and enables effortless expansion into new markets. You can trust Electric Lightwave to be your technology partner. Electric Lightwave's SIP Solutions gives you quality, reliable service and the features you need to ensure better business communications in a fast-moving and competitive world.

Meet Your Communication Challenges

Electric Lightwave's SIP Solutions will accommodate your most demanding bandwidth requirements—offering nationwide coverage to support your distributed offices, optimizing your network costs and efficiency and supporting the changing needs of your enterprise.

BUSINESS BENEFITS

- + **Integrate your voice and data**, eliminating the cost of separate networks.
- + **Guarantee voice service quality** and prioritization.
- + **Dynamically maximize bandwidth** for data when not used for voice.
- + **Interoperate** with all leading manufacturers' IP-PBX equipment.
- + **Save time** by utilizing our SIP Portal to manage your calling features.

The next-generation voice and data features of Electric Lightwave's SIP Solutions offer the following benefits:

- **Lower Costs** – Place more calls over the same bandwidth without additional circuits.
- **Business Continuity** – You can automatically reroute your numbers to a secondary location in case of site failure, ensuring uninterrupted communications.
- **Expanded Presence** – Move into new markets without expensive equipment costs and use local numbers nationwide.
- **Simplified Service** – Save time and money by servicing remote locations from a centralized PBX.
- **Scalable Bandwidth** – Support speeds from 1.5 Mbps up to 1 Gbps to meet your current and future bandwidth demands.
